

VELYNDA FULTZ, EC3

Velynda's answers to the three questions asked of her:

1. Why did you decide to run for office?

I am committed to Toastmasters because Toastmasters allowed me to gain my confidence back. I have learned so much about myself and others since I joined in January, 2017. My life and the person that I am today is better because of Toastmasters. I have changed for the better because of this organization and every member I have interacted with. I decided to run for Program Quality Director because I want to help others have that life changing experience as well.

2. What vision do you have for the district?

I know that the District and all of its members are capable of excellence. I feel like we can achieve that excellence with E3; Engagement, Education, and Experience. As Program Quality Director, I would establish continued open communications, so each member feels engaged, encourage all members in their educational pursuits, and create programs that enhance members' experience, both inside and out of club meetings. I believe that this approach will help District 30 thrive, excel and be sustainable.

3. What are your unique talents/skills that you are bringing to the team?

I possess many skills. I believe these are unique and will be an asset to District 30. I am detail oriented. I am able to plan events, edit emails sent to members and create dynamic strategies. I am an effective collaborator. I am able to learn something about myself and others. For me, this creates wisdom and experience. I am a flexible adapter. I learned early in life that not all plans will happen as they were intended to. Now, I know how to accept that. I know that occasionally, acceptance can lead to some of life's best experiences. I think creatively. With this, I think outside the box and willingly express those ideas. I am efficacious and compelling.
